# **MARINE KIT**

# **PYROS 650 Evolution**

#### Thermostatic dry block calibrator

Range: T<sub>amb</sub> ÷650°C Stability: ±0.2°C

 Display Risolution: 0.1°C Well depth: 150 mm

Standards holes: 4 holes (Ø 3.2-5-7-10.5 mm)

DNV approved

# LPP40

# Manual vacuum and pressure generator

Pressure: -1÷35 bar Digital pressure gauge

Test Fluid: air

Carrying case with set of accesories

Standard equipment\*: Digital pressure gauge BIT

02, range -1/+20 bar, accuracy ±0.2%

### **LPP700**

## Manual hydraulic pressure generator

Pressure: 0÷700 bar

Digital or analogic pressure gauge Test

Fluid: water/oil

Carrying case with set of accesories

Standard equipment\*: Digital pressure gauge BIT 02, range 0/700 bar, accuracy  $\pm 0.2\%$ 

\*other scales on demand

# MPM-26 MULTIFUNCTION PROCESS METER AND CALIBRATOR

# Compact Multi-function Calibratorand True RMS DMM

- Measure and Source: mA, V. RTD's, TC's, Frequency
- Built-in 24 VDC Loop Power Supply and 250 Ω Hart Resistor
- Large, bright dual-measurement display
- Complies with 600V CAT.IV, 1000V CAT.III safety standards, 0-1000 V AC (true-rms) or DC

# WATERPROOF RIGID TROLLEY

# Trolley with compartments for the MARINA KIT instruments

- Shockproof waterproof ABS materials
- Internal shockproof EPM foam with indentations for housing MARINE KIT instruments
- Compensation valve
- Dimensions: 600x500x240 mm

\*HD2107.1 digital thermometer optional

#### **MARINE KIT GIUSSANI**

The Giussani Marine kit is the perfect solution for on-board ships sensors calibration and verification.

kit is suitable for The performing pressure, temperature and electrical signal verifications for all types of on-board pressure and temperature transducers.

The kit consists of basic tools from our production line, designed for the immediate the even in most unconfortable conditions and equipped with all the essential accesories.

#### **CERTIFICATION:**

All istruments are supplied with final testing, stability and accurancy report traceable to Accredia standards.
